وش تغيّر عن السكربت الأصلي:

- **البطل صار اليد:** يد وحدة لابسة ساعة سوداء بدون ماركة، وأكمام ثابتة لكل جزء من اليوم.
- **الإيقاع:** بدال 5 لقطات × 3 ثواني، صارت 14 لقطة × ثانية تقريباً، والقطع على حركة اليد.
- **الإضاءة:** بدال البارد والباهت، صارت صفراء دافية، وألوان قوية، وحبيبات فلم.
- **الزوايا:** من فوق، ومن مستوى الأرض، ومن عيون الشخص، وقريبة جداً.
- **الأرقام:** تطلع على شاشة الجوال في يده، بشاشات Adro الحقيقية بالكود، بدال الكروت الطايرة.
- **القفلة:** كلمات متباعدة مثل Gucci، والضوء الأزرق من تحت الجوال يصير دائرة الشعار.

Time	What happens
15.5–16.3	Black (#0A0A0B). The blue glow from under the phone stays alone and shrinks into one blue dot (#3355FF).
16.3–17.3	The dot draws into the open ring — never closes, never rotates.
17.3–18.0	The ring slides into the “o” of **adro** (white wordmark, blue ring).
18.0–20.0	Widely spaced words: **Your AI gym coach** · **Coming soon** · يشوف يومك كله... ويدرّبك عليه.

TRANSITIONS & AUDIO

- Hard cuts only, cut on the hand's motion (starts in one shot, finishes in the next), on the beat.
- Shot 1 and Shot 14 share the same overhead frame (morning → night).
- Warm, low, rhythmic beat building through the day.
- Foley on every cut: tap, water, plate, chalk, plates, bar on hooks.
- One beat of total silence when the lamp goes out; soft chime when the ring draws.

HIGGSFIELD TIPS & COST

- Generate one reference image of the hand (sleeve + watch) first and use it in every shot.
- Generate each shot at 3–4 s; only the best ~1 s is used.
- 2 variations per shot; keep the cleanest hands.
